Direct Hay Weighted Average Report for week ending 8/7/2020

Volume			
	This Week	Last Reported (7/27/2020)	Last Year
Tons:			
Hay	488	0	0
Total	488	0	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to the last report: Hay sold fully steady. Hay movement and demand is mostly moderate to good. Wyoming buyers continue to purchase Montana hay as drought conditions continue to worsen. Over 70 percent of Wyoming is in moderate to extreme drought. Drought conditions are spreading north as over 10 percent of Montana is in moderate to severe drought. Grasshoppers and weevils continue to eat their way across much of the central and eastern portions of the state. Many producers are worried if they are going to be able to make a 2nd or 3rd cutting.

N/A						
Hay (Conventional)						

Alfalfa - Premium (Trade/Per Ton)

	Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
Small Square	10	215.00-235.00	225.00	F.O.B.
