Direct Hay Weighted Average Report for week ending 12/4/2020

Volume			
	This Week	Last Reported (11/16/2020)	Last Year
Tons:			
Hay	3593	520	0
Straw	73	100	0
Total	3666	620	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to two weeks ago: Hay sold steady to firm on mostly moderate demand and light to moderate offerings. Mild weather has helped curb feed needs over the last few weeks, however many ranchers continue to buy for winter needs as they sale their calves. Supplies of hay are relatively tight for this early in the season and buyers from Wyoming continue to purchase hay out of Montana due to tight supplies due to drought conditions this summer. Dairy quality test hay found new life this week as several loads were purchased. Demand for this class of hay improved slightly. Several loads sold to Washington as well as loads to Pennsylvania and Wisconsin dairies.
