Direct Hay Weighted Average Report for week ending 6/11/2021

Volume			
	This Week	Last Reported (5/24/2021)	Last Year
Tons:			
Hay	226	69	0
Total	226	69	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Special Note: Special Note: ***Due to very light sales receipts this report will be released bi-monthly until early August when heavier receipts can be confirmed***

No comparison from last week due to light trade. This week allowed for slightly better trade, however, the grass is still growing and producers are waiting to get started on their first cut as they clear out their 2020 crop. Demand remains good to very good.
