Direct Hay Weighted Average Report for week ending 8/13/2021

Volume			
	This Week	Last Reported ()	Last Year
Tons:			
Hay	440	3674	3361
Straw	200	1150	0
Total	640	4824	3361
Bales:			
Hay	0	0	100
Total	0	0	100

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week: Hay sold fully steady. Demand was very good for all hay on offer. Many producers are starting to wrap up 2nd cutting and some are beginning to cut 3rd in southern and eastern locations. Producers continue to report long waiting lists of people looking for hay. Many are already supplementing hay as pasture and range conditions continue to deteriorate. Hay sales were much slower this week as many producers were in the fields working on grain harvest. Some producers are holding on to some hay supplies so they have hay left to sell in the spring. According to the drought monitor 100% of the state is in Moderate drought or worse. 98.7% of the state is in an Severe drought or worse and 68.35% of the state is in extreme drought or worse and 11.52% of the state is in an exceptional drought unchanged since last week.
