Year to Date Totals		2,948,070	2,811,203	3,212,036					

2022 90% Lean vs 50% Lean

100% Lean Inside Rounds

Net Slaughter Movement of Cows and Bulls

Data shown in the graphs below is derived from Livestock Mandatory Price Reporting -

[LM CT168](#) National Weekly Direct Cow and Bull Report

Graph Overview: <https://www.ams.usda.gov/sites/default/files/media/CowandBullMovementGraphOverview.pdf>

This graph illustrates the net slaughter movement from area to area. For example, when the line is in positive territory, there are more cows and bulls originating in the SW area and being transferred to the NW area for harvest. When the line is in negative territory, there are more cows and bulls originating in the NW area and being transferred to the SW area for harvest.

This graph illustrates the net slaughter movement from area to area. For example, when the line is in positive territory, there are more cows and bulls originating in the East area and being transferred to the SW area for harvest. When the line is in negative territory, there are more cows and bulls originating in the SW area and being transferred to the East area for harvest.

This graph illustrates the net slaughter movement from area to area. For example, when the line is in positive territory, there are more cows and bulls originating in the NW area and being transferred to the East area for harvest.
