Hay market prices remain mostly steady for alfalfa and steady for grass hay. Producers state that things are “quiet”, with trades slowing in some areas, however, demand remains good with lots of out of state interest. Folks are finishing up second cutting and many are on their third with most areas needing some rain. This week’s cool down sure feels great but will have us spoiled. The upcoming heat wave will leave us wishing for fall. Drought’s footprint remained rather limited across Kansas, eastern Colorado, and southern Nebraska. Farther north and west, however, worsening drought impacts were observed across much of Montana, Wyoming, and the Dakotas. According to the US Drought Monitor for the week of July 27th, abnormal dryness in Kansas (D0) remained at just under 30%, while moderate drought (D1) increased to 1.5%. Kansas remains fortunate as conditions in North Dakota continue to worsen. The State has reactivated their drought hotline. Information on the Drought Hotline can be found at [www.nd.gov/ndda/drought-resources](http://www.nd.gov/ndda/drought-resources). Join agriculture leaders from across the state for the Kansas Governor’s Summit on Agricultural Growth August 25th and 26th. More information about the Summit and registration can be found at [www.agriculture.ks.gov/Summit](http://www.agriculture.ks.gov/Summit).

\*\*\*Prices are dollars per ton and FOB unless otherwise noted. Dairy alfalfa prices are for mid and large squares unless otherwise noted. Horse hay is in small squares unless otherwise noted. Prices are from the most recent sales. \*CWF Certified Weed Free
