Direct Hay Weighted Average Report for week ending 3/31/2023

Volume		
This Week	Last Reported ( )	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

The state continues to wait for some extended dry time. A touch of fertilize has found its way on fields but not much as even most hillsides are too wet to get over without getting stuck. Pastures and hay fields seem ready to explode with growth as soon as some warmth arrives. At this time still no reports of any planting taking place although everyone is itching and eager to get to work. The supply of hay is light, demand is moderate and prices are steady. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

N/A						
Hay (Conventional)						

### Alfalfa - Supreme (Ask/Per Ton)

Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
