Methodology:

Data are submitted monthly by regulated handlers (milk buyers) to the regional Federal Milk Marketing Order Administrators (MA's). The monthly data are collected and then submitted to the Market Information Branch located in Washington, DC. Data are aggregated, organized, and formatted to provide the industry with monthly information reports.

Utilization of Producer Milk in Class II Products is the monthly volume of milk used to produce Class II Milk products.

The monthly All Markets Combined line is the total volume of milk used to produce Class II Milk products for each month.

The year-to-date (YTD) column is the total volume of milk used to produce Class II Milk products for each individual order and for all orders combined.

Class II Utilization Percentage of Producer Milk is the monthly volume of Class II Milk used to produce Class II products in each individual order divided by the monthly total of all producer milk pooled for that individual order for all classes.

The monthly All Markets Combined percentage line is the total volume of milk used to produce Class II Milk products for each month divided by total volume of milk pooled that month.

The year-to-date (YTD) column is the total of milk used to produce Class II Milk products for each individual order and for all orders combined divided by the total of all milk pooled for all classes of milk.

Butterfat Test of Producer Milk Used in Class II Products is the percentage of butterfat found in the Class II milk for each order for each month.

The All Markets Combined line is the percentage of butterfat found in the total Class II milk for all orders for the month.

The year-to-date (YTD) column is the percentage of butterfat found in the total Class II milk for each individual order and for all orders combined.

Nonfat Test of Producer Milk Used in Class II Products is the percentage of nonfat solids found in the Class II milk for each order for each month.

The All Markets Combined line is the percentage of nonfat solids found in the total Class II milk for all orders for the month.

The year-to-date (YTD) column and the annual is the percentage of nonfat solids found in the total Class II milk for each individual order and for all orders combined.
