The Cotton & Tobacco Program (C&T) is one of the commodity programs within the Agricultural Marketing Service (AMS) of USDA. Cotton & Tobacco Market News facilitates the domestic and international marketing of U.S. cotton and tobacco by providing accurate, timely, relevant, and unbiased data, information, and services.

We have disseminated over 7,100 individual Cotton Market News reports to industry and stakeholders. These market news reports are issued on a daily, weekly, monthly, quarterly, and annual basis, providing pertinent market information that assists buyers and sellers in making marketing decisions.

C&T Market News is progressive in providing new and innovative ways to present marketing information through new data analytics and visualizations.
